

Mr. Shorr's Quick Reference Guide for PLTW Computer Science Applications

Email: gshorr+csa@spusd.net **Phone:** (626) 441-5820 ex.2417 **Website:** <http://mistershorr.com>

Here are some of the highlights of the course. Students will:

- Design and build apps using Java for the Android platform.
- Use industry standard design tools.
- Learn common design patterns used by startups and large tech companies alike
- Use technology to better human lives.
- Connect apps to database back-ends in the cloud

Helpful CSA Resources:

- Your student's classmates represent one of the most important resources your student has.
 - Use piazza to get help!
- Udacity Intro to Android Programming course
- Detailed instructions in each problem/project's word file.
- If your student is stuck, try to have them articulate the problem, explaining what's going wrong, and then search for that online. Answers from StackOverflow.com are generally good.
